

2022 DIY Desk Calendar

1st Layer - Card Base:

Colored card stock – cut to 5" x 6" (so you can get two bases from one piece of cardstock)

2nd Layer – DSP

Coordinating color to the base – cut at 4.75" x 5.75"

Calendar Layer:

Use same color card stock as on the base.

Use the 2nd largest scalloped rectangle die from Stitched So Sweetly die set.

Or as a substitute, you could use any rectangle die that measures approximately 2.5" x 3.5"

Stamped Month Calendar Layer

White card stock – cut to 2 1/8" x 3 1/4"

Basic Instructions:

1. Choose your colors and DSP, then cut all of the above pieces.
2. Adhere your 5" x 6" DSP layer to your colored card stock base.
3. Stamp your calendar layer for the month on the 2 1/8 x 3 1/4" piece of white cardstock.
4. Adhere this stamped calendar layer to the scalloped rectangle die cut.
5. Add stampin dimensional or foam adhesive to the back of the scalloped rectangle layer and place it on the bottom half of the base.
6. Proceed to stamp, cut and decorate your calendar page.
7. Keep in mind while you decorate that you will need to leave a small area at the top to punch out your holes. My holes are punched at 1.5" in from each side and about 3/8" of an inch down.
8. Connect all your pages together using a Book Ring, or in my case I just used twine and tied a knot and trimmed the ends off.

Stamp Sets Used:

Month	Stamp Set	Catalog Location	Item Number
Each Page:	Days to Remember – for the calendar & month	p. 18	155026
